Turn over to make one orbit

MAKE ONE ORBIT

The moon and star move together as one solid piece.

1

START

1 SET

Place the rounded outer arc on a smooth, level surface.

2

NUDGE

2 ROCK

With one finger, gently nudge either sturdy moon tip.

3

RELEASE

3 RETURN

Release. Let the joined star rise, crest, and come back.

IF IT DOES NOT ROCK CLEANLY

Move to a hard, level surface. Clear grit.
Use a smaller nudge; do not force or spin it.

CARE + SAFETY

Ages 14+. Keep from small children. Use dry indoors.
Wipe gently. Stop if cracked. Store flat, away from edges.

Sampled poses show intended motion; they are not clicks or detents.
