# Our story

Our mission is to help smart people work smarter.

From a small apartment in NYC to 60 locations around the world.

The Autonomous story began in September 2015, when we shipped the first SmartDesk to our Kickstarter customer. Since then, we have been dedicated to helping people work smarter.

That SmartDesk is now helping more than 130,000 customers globally be healthier, happier and more productive. How do we know? Because they tell us! The community have given us an incredible amount of feedback, enthusiasm and support.

The team of entrepreneurs, innovators and risk takers are the greatest thing about Autonomous. We love our SmartDesk, ErgoChair and everything we have created; and what we love even more is what our customers do with them.

Behind our desks, people are reimagining whole industries, giving life to AI, developing new medicines, designing robots and even exploring outer space - NASA, Singularity, Harvard, Uber, Orbital Insights, Dell Computers and Deep Map, just to name a few.

Autonomous makes workplace of the future an everyday reality for people who are changing the world.

Join the **#worksmarter** revolution.

## REVIEW US & GET YOUR COOL PRODUCTS

We know how important it is to get the perfect office set up to improve your health, happiness and productivity. So we hope our products can reach out to more people. We can only do that if we have your help.

If you're journalist or influencer who are interested in reviewing our products, please take these simple steps to reach out to us:

---

**Step 1:** Pick the products you want to review in this press kit

---

**Step 2:** Email us at [vuonghoa@autonomous.nyc](mailto:vuonghoa@autonomous.nyc) to let us know you have interest in our products

---

**Step 3:** Wait for our PR specialist to reply within 1 business day

**Easy? Pick your option & email us now!**

## ErgoStool

\$99

Wobble your way to better spine health.

Build strength in your back and core by sitting up straight without the support of a chair and “wobbling” gently while you sit. Dynamic sitting emulates the frequent posture changes we make while standing that naturally tone our muscles. The weighted base provides great traction on various surfaces, allowing for a wide range of motion while seated.
